## ***Jim's Opinion***

1. China planned **biological warfare** to gain an advantage over the United States and to dominate the world.
2. The **CCP** (China Communist Party) **is evil**. They killed 80 million of their countrymen under Mao.
3. One of China's research paths involved making, synthetically or naturally, a **virus that was able to severely attack the human body**.
4. The Chinese plan would require **developing a vaccine** for themselves, **not yet completed**.
5. Due to sloppy work at the **Wuhan Institute of Virology**, the virus got out by accident, prematurely.
6. The **CCP** is directing the cover-up.
7. Trump knows more than he announces publicly. CCP will be punished.
